EDUCATION

Jamia Millia Islamia

Diploma in Computer Engineering

New Delhi , India

2023 - 2026

Jamia Millia Islamia

Senior Secondary (Class X)

New Delhi , India

2021 - 2023

EXPERIENCE

Intern

FTK - CIT

June 2025 – July 2025

Jamia Millia Islamia

- Developed a secure full-stack blogging platform (**BlogLikho**) using **PHP** and **MySQL**, implementing authentication and role-based access
- Engineered separate **User and Admin panels** for content creation, moderation, and platform management
- Built a comprehensive **Admin Dashboard** to manage posts, users, and site activity efficiently

Freelance

Backend & Full-Stack Work

- **Handicraft Platform**
- Built a full-stack e-commerce website using Next.js, Node.js, Express, and MongoDB
- Added JWT auth with user/admin roles, product CRUD, and order management
- Integrated payments, pagination, and deployed on Vercel (FE) and Render (BE)
- **Discord Bot**
- Developed a Discord bot using Node.js that generates memes when users tag the bot with a prompt in chat.
- Integrated the Magic Hour SDK to create AI-generated memes dynamically based on user messages.
- **Slack Bot**
- Developed a Slack bot using Node.js and Slack Bolt that generates AI-based memes when users tag the bot with a message in Slack channels.
- Integrated Slack OAuth for multi-workspace installation and used the Magic Hour SDK to dynamically create and post memes based on user prompts.

PROJECTS

JamiaConnect | MERN

[Link](#)

- Built the Jamia Connect website from scratch, an all-in-one platform with 5+ core features for the 20,000+ students at JMI.
- Added 3 main social tools: a private 1-on-1 chat, a blog for posting stories, and a search bar to find any student on the platform.
- Combined 2 key information sources for students by including a live JMI notice board and a library for old exam papers (PYQs).
- Made a feature for students to upload their own files. (**Cloudinary** , **Multer**)

URL Shortener | MERN

[Link](#)

- Built a **scalable URL shortening platform** with custom slugs, QR codes, and link expiration using **Node.js**, **Express**, **MongoDB**, and **React**
- Designed and implemented **RESTful APIs** for link creation, redirection, analytics tracking, and secure access using **JWT-based authentication**
- Implemented **click analytics** (device, country, referrer, timestamps) with efficient backend queries and frontend visualization
- Improved performance and maintainability using a **modular React architecture** with reusable hooks/components; deployed on **Vercel (frontend)** and **Render (backend)**

TECHNICAL SKILLS

Languages: Java, Python, C/C++, SQL (Postgres), JavaScript, HTML/CSS , Typescript

Frameworks: React, Node.js,,Express,Nextjs , JUnit , Material-UI , shaden

Developer Tools: Git, Docker , VS Code, Visual Studio, IntelliJ, Eclipse, MongoDB Atlas
